To the FCC. being a truck driver, xm radio has made a world of difference in my daily grind. It helps to cut down on boredom, stay in touch with world and local events. It also helps to reduce fatigue and road rage. The comedy channels. As being an American we are guaranteed the freedom of speech and the right to make our own decisions on what we want to watch or listen to. I bought xm for the reason of entertainment and information nationwide. Plus I pay a monthly fee for those rights. Just like satellite tv. So pick on something else and leave satellite radio alone. If someone doesn't like a certain program, TURN IT OFF. SINCERELY,
